Gatorshield Layers of Protection

Gatorshield Advantages

- Superior Strength – Minimum 50,000 psi yield strength and 55,000 psi tensile strength provide the ultimate in structural integrity.
- Unsurpassed Corrosion Protection – Gatorshield is more resistant to rust than any competitive tube product. The Flo-Coat® process makes the difference!
- Ease of Fabrication – No chipping or flaking when bending and/or flattening
- Versatility – Gatorshield tubing is available in a wide range of sizes in rounds, square and rectangular shapes
